Sleep Country Opens 75th Location at Cascade Station

PORTLAND, OR—Sleep Country USA, the Northwest’s largest mattress retailer, opened their 75th location April 17th at the Cascade Station Shopping Center, the newest shopping development in the Northeast Portland area.

Sleep Country USA continues to grow in Oregon and Washington with over 70 locations, and has been offering quality mattresses at affordable prices since 1991. Sleep Country at Cascade Station experienced a successful grand opening weekend Saturday and Sunday, April 18 and 19. “Our new Cascade Station Sleep Country USA store had a strong opening. Customers loved the store and were ready to purchase their new mattresses,” explained Terry Horsley, Vice President of Brand Strategy for Sleep Country USA.

The location of Cascade Station was a key factor in Sleep Country’s decision to open a new retail store. “The Cascade Station location was strategic for Sleep Country USA because we believe Cascade Station is positioned as a vibrant new shopping area in a growing community. Considerations were also given to the shopping center’s proximity to MAX Light Rail,” said Horsley.

Cascade Station is a vibrant mixed-use development at the “gateway” to Portland International Airport. The 120 acre outdoor center features national retailers and restaurants such as Sports Authority, DSW, Home Goods, Buffalo Wild Wings, and Red Robin, and neighbors Oregon’s only Ikea store.

##

Cascade Station is a development of CenterCal Properties, LLC. CenterCal owns and operates seven shopping centers in the western U.S., encompassing more than 3.5 million square feet of retail. CenterCal Properties, LLC was formed in 2004 by Fred Bruning and Jean Paul Wardy as a joint venture with the California State Teachers Retirement System. www.centercal.com.
